

REM LIVE®

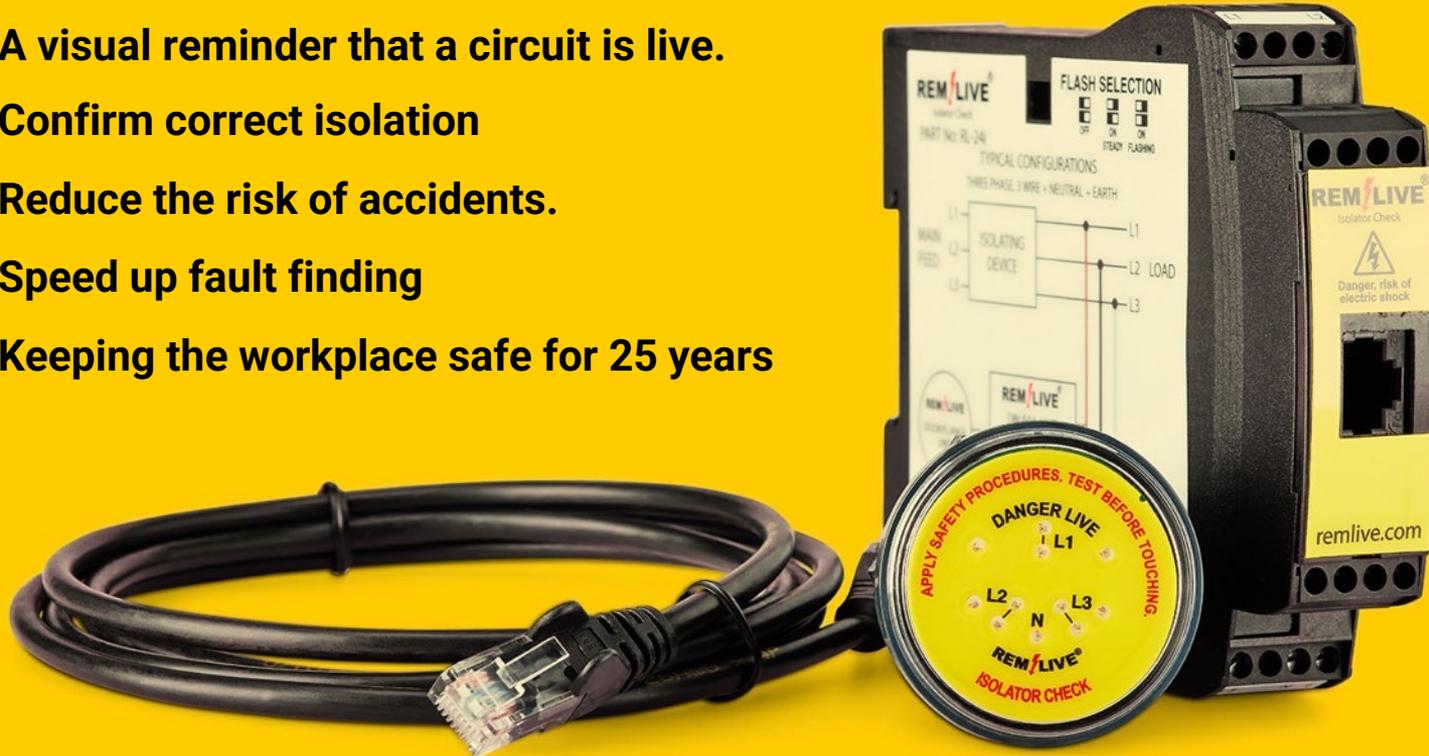

The Electrical Safety Warning Indicator Specialist

REMLIVE electrical safety warning indicators

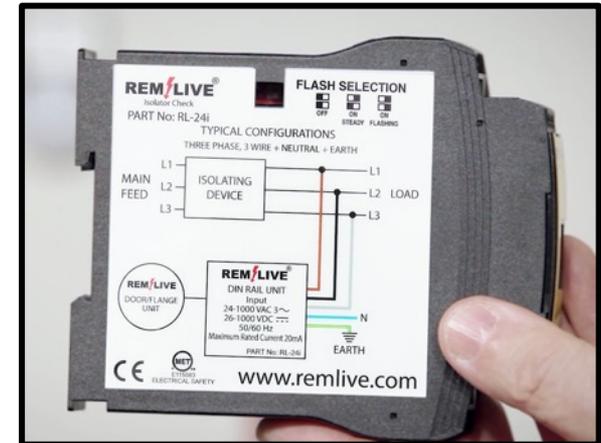

- ✓ **A visual reminder that a circuit is live.**
- ✓ **Confirm correct isolation**
- ✓ **Reduce the risk of accidents.**
- ✓ **Speed up fault finding**
- ✓ **Keeping the workplace safe for 25 years**

The REMLIVE RL-24i Isolator Check

- ✓ **Confirm correct isolation.** Provides the user with a quick and easy method of proof of isolation in lock out / tag out procedures.
- ✓ **Attract attention.** Bright, flashing LEDs display live/isolation status on the front of a control panel.
- ✓ **Electrical isolation** between the Din rail unit and door mounted display unit. Low voltage to the door ensures maximum safety.
- ✓ **Broad range of voltages.** Monitor voltages 24V-1000V and individual phase lines, even after phase isolation.
- ✓ **New or existing control panels.** 30.5mm door footprint, 22.5mm Din rail width for simple installation. Maintenance free.
